

Dear Resident - we hope you are well in these difficult and strange times. James and I continue to do our best to maintain communication with as many of our 10,000 Greenbank residents as possible by post and by email, and on Twitter and Facebook but we still have not been able to hand deliver hard copy information. *Please cascade information that may be useful to your neighbours where appropriate, many thanks*

Community Skips - Friday 17th July - there will be LSSL skips for community use in your area on Friday 17th July (hopefully until Monday 20th July) at:-

> **HALKYN AVENUE, near Gresford Avenue, L17**

> **GARMOYLE ROAD, by Kenmare Road, L15**

These will say 'LSSL' on them and are for residents' household and garden waste. ALSO Bulky Bobs are now operating again and the Recycling centres at Old Swan and Otterspool are open. ***Please re-use, compost or recycle as much waste as you possibly can.***

*IF (when!) you see houses (usually student houses) with waste dumped outside please report on the Council website and also let us know the **specific addresses** as we will ensure that profit-making landlords pick up the cost of this wherever possible - not local tax-payers via the cash-strapped council... (you do NOT need to send us photos with the message , this can block emails)*

Landlord Licensing Scheme Consultation - you may recall that our free-market obsessed government refused to let us continue to have a Landlord Licensing scheme that covered the whole city last year, so we are now submitting a smaller scale scheme that covers just over half the city (but the half with over 75% of city's privately rented accommodation in it) - including Greenbank. We appreciate residents and the residents groups who supported the scheme in the previous consultation - including the "Dales Residents Group" and "TANN" (The Avenues Neighbourhood Network). We would urge you to support this amended scheme - and can assure you that landlords will still be objecting! There is NO sensible reason for landlords to not be licensed - the fee covers administering the scheme only - and means Council have some control over housing standards in Liverpool. What is not to like? <https://liverpoolexpress.co.uk/consultation-on-fresh-landlord-licensing-scheme/?fbclid=IwAR00Gt-x8Oo6oGIs2vuDUGYz8fVZfysjdQR9FZrFhk2bd99J7m8jG46V6a0>

And on a cheerful note, last weekend was **National Meadows Day** - as well as our wildflower meadow at St Agnes Field on Ullet Road, we have now planted more than 15 meadows across the city including at: Croxteth Park, Muirhead Avenue and West Derby Gate meadow; Rice Lane Recreation Ground; Everton Park; Dale Street; World Museum, William Brown St (NML); Islington Central Reservation; River Oaks, near Otterspool; Walton Hall Park; Clubmoor Rec & Utting Avenue; Thirlmere Park; Stanley Park; Sefton Park (the field east of big lake); The Florrie on Mill St; Caryl Street, L8; Riverside Drive; & Sefton Street. Thank you to everyone especially our partners at 'Scouse Flowerhouse' for the support on improving biodiversity in our city...

we hope this is helpful, stay in touch

with best wishes

Laura, Cllr Robertson-Collins- laura.robertson-collins@liverpool.gov.uk

James, Cllr Roberts - James.Roberts2@liverpool.gov.uk
